Tailored Insurance Solutions for Private Clients

GPIS is an Appointed Representative of Stackhouse Poland Ltd, which is authorised and regulated by the Financial Services Authority No 309340

gpis1/2 (0109)

Green Park Insurance Services Ltd (GPIS) is a specialist general insurance broker in the Private and Corporate/ Commercial Property markets. It provides expert advice and structures insurance programmes for high net worth individuals and is one of the leading providers of portfolio insurance programmes for private clients.

It also provides insurance advice for investors in property and discerning business owners, and brings a unique and highly confidential approach to these very different areas of insurance.

Our aims

As an advice driven organisation, authorised by the Financial Services Authority, it is our aim to ensure that clients benefit from the widest possible policy coverage backed by fast, efficient and, above all, confidential customer service. In essence we seek to provide our clients with a single point of contact who is able to assist with all of their insurance requirements

The services offered by GPIS will suit those that:

- Have larger than the average insurance costs
- Have not had their true insurance needs assessed professionally
- Have multiple policies covering Buildings/Contents/Cars and would like one policy
- Need a single point of contact, as time is of the essence.

How do we Operate?

Our initial objective is to gain a clear understanding of our clients' individual requirements. Our specialist knowledge of the high net worth insurance market then allows us to recommend the most effective solution from our dedicated panel of insurers.

The Three Stage Solution Inventory Assessment and Review

Many of our clients need assistance in working out the value of their belongings, and this process means that we can ensure that assets are protected, thus avoiding the perils associated with under-insurance.

This 'fee free' service is provided by one of our experienced private client managers at your home address. It includes undertaking a detailed inventory of your contents. If appropriate we will introduce you to one of our approved panel of Independent Valuers or Auction Houses. We also provide advice with respect to security improvements and other areas of risk management in order to protect your assets more effectively.

Report & Recommendations

Once the information gathering and review has been completed, your private client manager will prepare a report, which will contain a copy of the inventory, and their recommendations with respect to cover and policy selection.

Ongoing Service

Your client manager will remain your point of contact for any future changes to the policy, and will undertake a full review for you at renewal to ensure that your present insurer remains competitive.

The Portfolio Approach

The Portfolio Approach adopted by GPIS identifies the client's needs and seeks to put in place a single policy, tailor made to their requirements, with one insurer, one renewal date and with one point of contact.

It is common, when meeting our clients for the first time that we find their insurance arrangements are extremely disjointed: they have different policies with separate renewal dates, through various insurers, and often use more than one Broker or direct provider.

A Typical Portfolio Client:

- Property Value - £1,000,000
- General Contents £100,000
- Antique Furniture/Pictures - £50,000
- Jewellery - £30,000
- Holiday Cottage/Overseas Villa
- Annual Travel Cover
- Single Car - £30,000+ or Family Fleet of 2 Cars+

The Cover provided by GPIS would include:

- All of your possessions anywhere in the world
- Full Accidental loss cover for Buildings, Contents and Fine Art as standard
- Warranty free cover better suited to your lifestyle
- Motor - single to multi vehicle family fleets
- Classic and high performance cars
- Policy can include driving any car
- Annual Travel Cover with higher limits for more expensive holidays and trips.
